## **DETAILED ACTION**

### ***Claim Objections***

1. Claims 1, 5, 9 and 10 are objected to because of the following informalities:
2. In claim 1, line 11 "pliability" should be "pliable".
3. In claim 5 line 2 "not" appears to be a typographical error.
4. Claims 9 and 10 are methods, yet depend from claims 5 and 6 which are not.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Muzik, US #4,197,151.
7. Muzik discloses a decorative display system comprising first pliable foam layer 15 and second magnetic layer 25 (Figure 5). The foam layer is approximately .1875 inches thick and the magnetic layer is approximately .008 inches thick. The foam is receptive to paint, ink or adhesive. Muzik describes a method for making the system (column 6 line 52).
8. The finished laminate may be cut to a desired size and shape.
